Join ACTSA and the Zimbabwe Vigil on **27 June** to mark the fifth anniversary of the fateful presidential run off in 2008 marred by a brutal and corrupt campaign of violence, including murder, disappearances and mass rape.

**Zimbabwe will hold elections again very soon.**

Join us on **27 June** to say **never again** to a repeat of the terrible violence of 2008 and support the calls of Zimbabweans for **free and fair elections** that comply with the Southern African Development Community standards for democratic elections.

We are calling for Zimbabweans to have the right to vote freely for whom they wish without fear or favour • An accurate and up to date voter roll • Fair access to and coverage by state controlled media • Impartiality by institutions of the state • Domestic election observers and truly independent external election observer missions in place well before the election.
